

## **WDS Executive elected to local Warehousing Education and Research Council**

As part of Wireless Data Systems' ongoing commitment to lead and to participate in organizations that foster economic and technical advances in our community, Marty Stockdale, VP of Sales and Marketing, was elected as Vice President of the South Florida Chapter of Warehouse Education Resource Council (WERC).

The Warehousing Education and Research Council is the only professional organization focused on warehouse management and its role in the supply chain. WERC is where distribution experts come together to share practical knowledge and professional expertise with the aim of improving individual and industry performance. Through leadership and membership in WERC, seasoned practitioners as well as those new to the industry stay at the forefront of innovation; master best practices, and establish valuable professional relationships.

Mr. Stockdale will assist in promoting the benefits of WERC membership to local businesses; focus on providing educational seminars on strategic matters like technology, infrastructure, workforce management and legislation; and participating as a committee member in the organization's annual Charity Golf Tournament. For more information on the local chapter, contact the South Florida WERCouncil at [sflaboard@yahoo.com](mailto:sflaboard@yahoo.com).
